Automower® 315 Mark II

Husqvarna Automower® 315 Mark II is an easy-to-use robotic lawn mower suitable for lawns up to 1500 m². Thanks to the compact 4-wheel design, you can trust it to deliver perfect results on both slopes with a 40% incline and in narrow passages. The mower is easy to clean and features a frost guard and weather timer, which adjusts cutting times to suit the season and interrupt the mowing schedule in the event of frost. This means that no unnecessary grass wear occurs. In addition, the mower switches to systematic mowing mode in narrow passages to reduce the number of turns and

minimise wheel tracks. With the Automower® Connect app, you can both monitor and manage the mower conveniently with your smartphone.
