

## Husqvarna Automower® 320 NERA

A robotic lawn mower that handles rough terrain and lawns up to 2200 m<sup>2</sup>. Husqvarna Automower® 320 NERA offers reliable operation, robust design, and the possibility of flexible precision mowing with virtual boundaries via the Automower® Connect app and the optional Husqvarna EPOS™ Plug-in Kit, which eliminates the risk of wire breakage. With GPS-assisted navigation, the mowing pattern is adapted to ensure an even result across the entire lawn. The patented non-fixed front axis increases manoeuvrability and improves rough terrain performance on slopes up to 50% incline. The mower can also be integrated with your smart home so you can use voice control with Alexa or Google Home, or take advantage of IFTTT routines.
